

# Indoff Case Study: Atlantic Telephone

**Type of Application: Space Planning**

## Customer:

Type of Business: Regional provider of telephone, internet, cable TV, and wireless communication

Location: Shallotte, North Carolina

Systems Furniture: AIS-Matrix  
Mailroom: Mayline  
Casegoods: OFS  
Executive & Task Seating: Sit-On-It  
Public Seating: Carolina & OFS

## Customer Benefits:

ATMC is a regional provider of telephone service, high speed internet, cable TV, and wireless communication. Because of rapid growth, a new corporate facility was needed.

"Indoff gave us the best layout, the right products and a good price. They followed that with professional service, project management, and installation. We made the right decision."

- Allen Russ, Chief Operating Officer

## Project Overview:

Indoff was selected over the competition because of its superior design work and a wide range of excellent products, which combined with competitive pricing provided ATMC with the best value. The new 40,000 sq. ft. Corporate Center was designed by John Kaiser.

John Kaiser, Indoff's local Sales Partner also furnished all of the new furniture and accessories, and orchestrated the relocation of all departments including the executive offices.

Indoff completed all project management and installation on time and within budget.
