

Case Study: Drs. Kommer & Sturdivant

Customer:

**Drs. Kommer &
Sturdivant**

Type of Business: Doctor's Office

Location: Altoona, Iowa

Product: Reception seating & filing

Type of Application: Orthodontist Office

Customer Benefits:

Drs. Kommer and Sturdivant selected Indoff to furnish their new office due to product variety. Whereas most doctors offices are decorated in subdued colors and fabrics, our client wanted a more upbeat and colorful facility for their patients.

Project Overview:

Drs. Kommer and Sturdivant are orthodontists in Altoona, IA. Their practice consists of hundreds of children and adults with orthodontia needs.

The Drs. envisioned a contemporary, yet warm and inviting environment. Young people are often nervous about visiting doctor's offices so Indoff created a look that was fun and energetic. The finish on the Campbell Contract chairs matched the millwork used on the interior of the building. Single chairs were ganged together for organization and wider chairs were utilized for larger clients. The Anzea textiles fabric style selected was Jelly Beans. Jelly Beans, a Crypton fabric with 100,000 double rubs, is engineered to provide extreme stain, moisture and microbial resistance by encapsulating the fibers with a patented moisture barrier. The fabric is easily cleaned and meets the rugged California flammability tests while remaining soft, pliable and breathable. Indoff used two fabric colors to compliment the accent colors in the carpet and walls. The doctors were very pleased that the fabric found was both fun and able to withstand the wear and tear that excited children can produce.

The paint color selected for the walls was a difficult color to match for most filing cabinet manufacturers. Great Openings standard color options allowed for Indoff to make a coordinated selection.

The employee's task seating (not shown) was the new Census seating line from Sit on It. The doctors were surprised by the comfort level of this product.
