

Case Study: Mt. Olive Family Medicine

Customer:

Mt. Olive Family Medicine

Type of Business: Physician's Office

Location: Mount Olive, NC

Product: Reception Seating: Integra
Case Goods: Groupe Lacasse
Task Seating: Sit On It
Panel Systems: AIS – Mwall
Filing: SpacePro Mobile

Type of Application: Design and furnishing of new medical center

Customer Benefits:

Mt. Olive Family Medicine serves people working in an active rural environment. Their new state-of-the-art facility creates space to expand health care service. The Mt. Olive staff includes six physicians with plans to add additional healthcare providers.

"Our patients, staff and owners couldn't have been more pleased."

- Carol Dilda, Business Manager

Project Overview:

Indoff was chosen from among several competitors to design and furnish a modern facility for the practice, which after 28 years in the same location had become outdated.

John Kaiser, Indoff's local Sales Partner, created a friendly waiting area and colorful clinical areas designed for the comfort of patients and their families. Fabrics and finishes were chosen not only for their appearance but for long-term durability.

Office and business areas reflect the specific needs of a new modern medical facility. High density filing and panel system workstations are both functional and space efficient.

In addition to providing interior design and supplying the furniture and furnishings for the 16,000 sq.ft. facility, Indoff also provided project management and turn key installation.
